

GIELLY GREEN'S OPULENT ANTI-AGEING FACIAL: A JANUARY 2025 TATLER HIGHLIGHT

Gielly Green's Opulent Anti-Ageing Facial

Upstairs in Gielly Green's glossy three-floor Marylebone townhouse, where glamour wafts from every flickering Trudon candle, lies the secret behind a complexion that Cleopatra herself would envy. As legend tells it, the last queen of ancient Egypt covered her face in pure gold at night to preserve her looks. Myth or not, Gielly Green's latest anti-ageing facial – an indulgent 105-minute treatment that concludes with a decadent 24-carat gold mask – delivers a glow that is 100 per cent real. When skin looks

worn and lacklustre, this is the ticket to a radiant, youthful complexion. Part beauty technician, part wizard, aesthetic therapist Odette begins with a Hydrafacial, using vortex-fusion technology to cleanse, extract and hydrate, setting the foundation for what's to come. The neck and décolletage get equal, devoted attention. Then it's on to the massage: a masterful blend of techniques, starting with precise strokes to encourage lymphatic drainage, followed by more vigorous movements to contour, lift and tone. Things get high-tech again with Forma, a non-invasive skin-tightening device that uses heat and radiofrequency energy to kick collagen into high gear. Any flushing or redness subsides while Odette massages your head, neck, arms and shoulders; at the same time, LED red-light therapy on your face accelerates cellular renewal and the gold mask works its anti-inflammatory magic. The results are immediate: a face that's firm, sculpted and glowing like it's ready for the red carpet – or cruising along the Nile.

£475 for 1 hour 45 minutes,
